Bonopty®

BONE BIOPSY SYSTEM

12 GAUGE

Optimize tactility and efficiency during your procedures with Bonopty® products

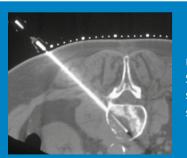

Biopsy of bone lesions.

- Gain access into the bone, even through thick cortical bone.
- Facilitate multiple sampling, or treatment of lesions.
- Achieve excellent core samples with few crush artifacts.
- Successfully sample somewhat sclerotic lesions.

Device description

Use of Bonopty® Penetration Set and Bonopty® Biopsy Set to sample a lytic lesion with bone structures in lumbar vertebrae.

ERGODYNAMIC HUBS -ECCENTRIC DRILL TIP · Allow for increased user torque Enable finger tip control and tactility UNIVERSAL LUER-LOK • Enables secure connection for injections and aspirations **CORE LOCK** • Prevents sample loss by fixating specimen

- Facilitates penetration of thick cortical bone
- · Drills a hole larger than its' own diameter

INNER REDUCTION OF BIOPSY CANNULA

- Allows user to obtain larger specimens
- Ensures preservation of specimen structure

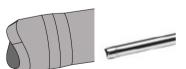

OUTER REDUCTION OF BIOPSY CANNULA

• Reduces friction during sampling by allowing easy penetration of cortical bone

DUAL-TIP CUTTER BIOPSY NEEDLE

- Enables large core sampling of somewhat sclerotic lesions
- Allows capture of more dense bone sample

SAMPLE EJECTOR GUIDE

SAMPLE EJECTOR PIN • Enables user to fully eject

entire sample

in distal tip of biopsy

 Aids in keeping sample intact during retrieval

cannula

- Provides protection for user against the sharp tip of the biopsy cannula
- Allows easier ejection of dense bone samples

DEPTH GAUGE

- Enables user to obtain an accurate sample length
- Provides mechanical stop for the biopsy cannula

Ejection of sample from biopsy cannula using sample ejector pin and sample ejector guide

TECHNICAL SPECIFICATIONS

Bonopty® Penetration Set, 12G

Package contents:

• Penetration cannula with stylet Inner diameter 2.5 mm Outer diameter 2.82 mm

Length 10 cm

 Drill Diameter 2.45 mm Length 12.7 cm

Depth gauge

Bonopty® Biopsy Set, 13G

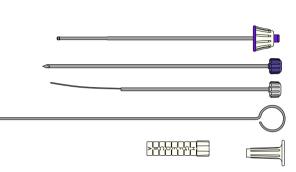

Package contents:

- Biopsy cannula with stylet Inner diameter 1.80 mm Outer diameter 2.41 mm Length 16.5 cm
- Core Lock
- Ejector pin
- Ejector guide
- · Depth gauge

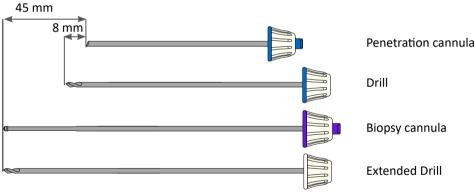

Package contents:

 Extended Drill Diameter 2.45 mm Length 16.5 cm

LENGHT COMPARISON GUIDE

ORDERING INFORMATION

Product number	Product description	Minimum Order Quantity
12-1272	Bonopty® Penetration Set, 12 gauge, 10 cm	5 units
12-1273	Bonopty [®] Biopsy Set, 13 gauge, 16.5 cm	5 units
12-1274	Bonopty® Extended Drill, 13 gauge, 16.5 cm	5 units

Indication for use: Biopsy of bone lesions.

Before using Bonopty® read the instructions for use which accompany the product for indications, contraindications, warnings and precautions.

Bonopty® is a registered trademark of AprioMed AB. Patents pending.

APRIOMED develops, manufactures, markets and sells innovative medical devices and related services within the field of interventional radiology. We aim to deliver, in close collaboration with healthcare practitioners, innovative quality tools to achieve the most favourable solutions for radiologists worldwide. AprioMed is headquartered in Uppsala, Sweden, with a sales subsidiary in Londonderry, NH, USA. Our products are sold in more than 40 countries by AprioMed (direct sales in US, UK, Ireland and Sweden) and our local distributors.
